ALL ART FILES SHOULD BE 300 DPI, AND CMYK COLOR

Our magazine is printed at 300dpi, on 70lb No.3 Enamel, glossy paper. Ads can be accepted via e-mail, FTP, cd, or dvd and should be either pdf, pdf X1A, tif, psd, or jpg file format (Quark and InDesign documents will not be accepted). Please do not include crop marks, registration marks or color information bars with the submitted ad.

Ads must be accompanied by a color or b&w proof (which ever is applicable). If no proof is submitted we will not accept liability for any ads that print incorrectly.

Our magazine is produced using an Apple Computer on MAC OS X. We accept artwork from PC's. Should you need any assistance, please call our art department at 321.243.6161. All fonts must be embedded and/or outlined, but as an added precaution, please include all fonts.

TRIM - The Actual final size of the ad. This is where the page is cut (trimmed).
LIVE - .25" in from each side of the trim. Any important text or photography runs the risk of cut, or trimmed, off the page if it is not within the Live area.

BLEED - If you would like an image to cover the entire page you must have it fit to the Bleed specs. You will loose .25" on each side of the image, but this will assure that the image takes up the entire page.

If you have any questions or would like more info, please don't hesitate to Call or Email us!
